1. INTRODUCTION

This management's discussion and analysis ("MD&A") of financial condition and results of operations of ONEnergy Inc. ("ONEnergy" or the "Corporation"), formerly Look Communications Inc., is supplementary to, and should be read in conjunction with, the unaudited condensed consolidated interim financial statements for the three and nine months ended May 31, 2013 and 2012.

New risks and uncertainties arise from time to time, and it is impossible for the Corporation to predict these events or the effect that they may have on the Corporation.

Certain statements in this MD&A, other than statements of historical fact, may include forward-looking information that involves various risks and uncertainties. This may include, without limitation, statements based on current expectations involving a number of risks and uncertainties. These risks and uncertainties include, but are not restricted to: (i) tax-related matters, (ii) financial risk related to short-term investments (including credit risks and reductions in interest rates), (iii) human resources developments, (iv) business integrations and internal reorganizations, (v) process risks, (vi) health, safety, and environmental developments, (vii) the outcome of litigation and legal matters, (viii) any prospective acquisitions or divestitures, (ix) other risk factors related to the Corporation's historic business, and (x) risk factors related to the Corporation's future operations. 3. OVERVIEW

Significant current events

a) Change of business to ONEnergy Inc.

On July 9, 2013, Look Communications Inc. completed the change-of-business transaction and concurrent private placement, and changed its name to ONEnergy Inc.

The transactions involved the acquisition by ONEnergy of all of the outstanding shares of Sunwave Gas & Power Inc. ("Sunwave"), a privately held provider of innovative energy commodity products and services based in Toronto, for aggregate consideration of \$1,000. The consideration for the acquisition was satisfied through the issuance of 3,382,974 multiple voting shares and 3,759,883 subordinate voting shares in the capital of ONEnergy, each valued at \$0.14 per share. Concurrently with the completion of the acquisition, the Corporation completed a private placement for an aggregate of 30,446,767 multiple voting shares and 33,838,947 subordinate voting shares in the capital of ONEnergy at a price of \$0.14 per share for aggregate subscription proceeds of \$9 million.

Sunwave is a licensed retailer of energy commodity products to the residential and commercial customer market segments in Ontario. Sunwave's business can be divided into three customer segments: residential, small commercial and large commercial. Sunwave offers each customer segment both natural gas and electricity products.

b) Change of directors and management

On July 9, 2013, Henry Eaton resigned as director of Look Communications Inc. (“Look”). Stanley H. Hartt and Stephen J.J. Letwin were appointed to the ONEnergy board as independent directors, and David Rattee and Lawrence Silber continue to serve as ONEnergy's two other independent directors.

On July 9, 2013, Grant McCutcheon resigned as chief executive officer of Look and was awarded a severance payment of \$100 for his services to Look.

On July 9, 2013, Mark J. Lewis was appointed chief executive officer and Robert Weir was appointed chief operating officer of ONEnergy. C. Fraser Elliott continues to serve as ONEnergy's chief financial officer.

c) TSX listing

Effective July 11, 2013, the multiple voting shares and subordinate voting shares were listed and posted for trading on the exchange under the symbols OEG and OEG.A, respectively.

(d) Support Agreement

On December 18, 2012, the Corporation entered into a Support Agreement, led by a director of UBS and other independent parties, to acquire up to 45,000 of the Corporation's multiple voting shares at \$0.11 per share up to a 49.9% equity interest in the Corporation. On March 25, 2013, the Corporation terminated the Support Agreement and paid a \$225 termination fee.

(e) Dissolution of subsidiaries

On December 28, 2012, the Corporation's wholly-owned subsidiaries – Look Mobility Inc., Look Mobile Corporation, Look Communications Limited Partnership, and Delphi SuperNet Inc. - were dissolved.

(f) Statement of Claim in connection with the payment of Restructuring Awards

On July 6, 2011, the Corporation issued a Statement of Claim (the “Claim”) in the Ontario Superior Court of Justice (the “Court”) against certain former directors and certain former officers of the Corporation in connection with the payment of approximately \$20,000 of “restructuring awards” paid in 2009 (the “Sale Awards”), of which approximately \$15,700 was paid to the directors and senior officers named in the Claim (or their personal holding companies, as applicable) from the net proceeds of approximately \$64,000 realized by the Corporation on the sale of its spectrum license in 2009 (see Overview – Significant current events – Restructuring), as outlined in the following table:

	Number of options relinquished	Number of Share Appreciation Rights (SARs) relinquished	Equity-related payment	Compensation-related payment	Total payments
First Fiscal Management Ltd. ⁽¹⁾ / Michael Cytrynbaum	727	7,384	\$1,746	\$2,400	\$ 4,146
Jolian Investments Ltd. ⁽²⁾ / Gerald McGoey	335	14,769	3,166	2,400	5,566
DOL Technologies Inc. ⁽³⁾ / Alex Dolgonos	-	7,384	1,551	2,400	3,951
Former Directors and Senior Management	4,325	3,194	1,585	1,976	3,561
Total	5,387	32,731	\$8,048	\$9,176	\$17,224

⁽¹⁾ First Fiscal Management Ltd. is a company controlled by the former Chairman of the Board of Directors of the Corporation, Michael Cytrynbaum.

⁽²⁾ Jolian Investments Ltd. is a company controlled by the former Chief Executive Officer (“CEO”) and Vice-Chairman of the Board of Directors of the Corporation, Gerald McGoey.

⁽³⁾ DOL Technologies Inc. is a company controlled by the former Chief Technology Consultant to the Corporation, Alex Dolgonos.

The former officers and directors named in the Claim collectively resigned effective July 21, 2010. None of the allegations in the Claim have been proven before the Court.

On Friday, September 28, 2012, the Ontario Superior Court of Justice dismissed applications and motions made by certain of the Corporation’s former officers and directors and personal service companies for interim advances to finance their costs of defending claims made against them by the Corporation.

The Court denied the advances sought by Messrs. McGoey, Cytrynbaum, Redman, Smith, Colbran and the personal service companies (the “Applicants”), but held that Mr. Dolgonos (but not his personal service company) is entitled to advances for his defense of the claims made against him. On June 18, 2013, the Corporation advanced \$150 to Mr. Dolgonos (refer to the section entitled “Related party transactions – 2010 legal advances”). The Court’s reasons state in part:

“[Look] has established a strong prima facie case that the individual Applicants, excluding Dolgonos, acted mala fides, in their own self interests and not with a view to the interest of [Look] in respect of the Board’s approval of the equity cancellation payments based on a value of \$0.40 a share and in relation to the payment of retainers by [Look] to lawyers acting for the Applicants personally. Accordingly, [Look] has met its onus. I am not prepared to approve interim advancement to the individual Applicants (except Dolgonos) of their legal fees and expenses in respect of the Action.”

The Court emphasized that the findings made in the applications were not binding on the trial judge.

The Corporation has sought reimbursement of its costs of responding to the applications and motions.

On October 23, 2012, the Applicants served Notices of Appeal on this decision.

The defendants have delivered statements of defence. Messrs, McGoey, Jolian, Cytrynbaum, First Fiscal, Smith and Colbran subsequently issued third party claims against Stikeman Elliott LLP. These claims seek contribution and indemnity for the amounts claimed by the Corporation and damages for professional negligence and negligent misrepresentation.

Stikeman Elliott and McCarthy have not yet delivered defences to the third party claims.

The Ontario Court of Appeal heard the appeal from the September 28, 2012 decision of the Ontario superior court which dismissed the applications for the advance of defence costs which had been made by each of the defendants except for Dolgonos.

On July 4, 2013 the Ontario Court of Appeal issued its reasons dismissing each of the appeals. The Court of appeal stated in part:

For the reasons that follow, I would dismiss the appeal. In summary, I conclude that s. 124(4) [of the CBCA] does apply to claims of advancement in suits brought by the corporation. The statute imposes a judicial filter on advance funding and the strong *prima facie* test for determining whether advancement should be denied is apt. That test comports with the statutory requirement for court approval but also is sufficiently stringent to ensure that advance funding is ordinarily available to those claiming it unless there is strong evidence of bad faith. In my view, there was ample evidence to support the application judge's finding that Look's evidence overcame the presumption of good faith and that look was likely to succeed at trial...In my view, the applications judge made no palpable and overriding error in finding that the Board's valuation of Look's shares had no relationship to the actual market value and was not based on legal advice. This finding supported his conclusion that Look had made out a strong *prima facie* case of bad faith...

In my view, it was open to the application judge to conclude that when all the circumstances are taken into account, the retainer payments were part of a pattern of self-interested behaviour that supported the finding of a strong *prima facie* case of bad faith.

The defendants may seek leave to appeal this decision to the Supreme Court of Canada.

The Corporation continues to pursue its claims against the former directors and former officers named in the Claim (as well as their personal holding companies, as applicable) for payments, which the Corporation believes were not in the Corporation's or its shareholders' best interests.

(g) Management Service Agreement

Under the original terms of the Management Service Agreement entered into between the Corporation and UBS on May 19, 2004 ("MSA"), the Corporation had been required to pay an annual fee of \$2,400 to UBS and, on May 19, 2012, the MSA expired.

(h) Restructuring

During fiscal 2009, the Corporation sold its spectrum and broadcast license to Inukshuk Wireless Partnership.

From the commencement of the restructuring process through November 30, 2010, the amounts expensed included, among others, legal and consulting charges incurred in relation to the Arrangement, legal charges incurred related to former Director and former management indemnities, site restoration charges, contract termination charges, and estimated amounts due to government bodies. Additional charges may be incurred as the Corporation continues in its attempts to maximize shareholder value including the monetization of the remaining assets, the return of capital to shareholders, and legal charges incurred related to the recovery of advances made by former directors and former management to various law firms.

Income taxes

As a result of the restructuring of the Corporation's business, the cumulative eligible capital expenditure pool was converted to a non-capital loss.

Deferred taxes have not been recognized in respect of the Corporation's loss carryforwards. The Corporation has the following federal non-capital income tax losses, which may be carried forward to reduce future years' taxable income.

These losses will expire in the taxation years ending December 31 as follows:

Year	Amount
2014	\$ 12,588
2015	55
2026	403
2027	1
2028	8,987
2029	115,583
2030	5,748
2031	19,992
2032	3,457
Total	\$166,814

The Corporation's tax attributes may be utilized by the Corporation in its future operations, or may be utilized by a potential acquirer to offset income, provided certain tests are satisfied including those related to a change in control of the Corporation.

The Corporation

As at May 31, 2013, Look Communications Inc.'s shares were halted from trading upon announcement of the pending transactions which closed on July 9, 2013 (refer to the section entitled "Overview – Significant current events – Change of business to ONEnergy Inc.). Effective July 11, 2013, ONEnergy became a publicly listed Canadian corporation with shares listed on the TSX Venture exchange under the symbols "OEG" for Multiple Voting Shares and "OEG.A" for Subordinate Voting Shares.

Strategy

As at May 31, 2013, the Corporation was seeking to preserve its capital and protect the value of its remaining tax attributes while actively pursuing the change of business opportunity (refer to the section entitled “Overview – Significant current events – Change of business to ONEnergy Inc.”). Cash is invested in short-term highly liquid investments, the income from which is tax sheltered.

After a thorough investigation into the facts and circumstances surrounding the Sale Awards, on July 6, 2011, the Corporation issued a Statement of Claim in the Ontario Superior Court of Justice (see the section entitled “Overview - Significant current events - Statement of Claim in connection with the payment of Restructuring Awards”), and seeks to recover all or part of these awards, which remains a focus of the Corporation.

- Operating expenses for the three months ended May 31, 2013 totaled \$1,186, an increase of 3.9% over the three months ended May 31, 2012. This increase was due mainly to higher professional fees in connection with the proposed change of business.
- The total number of employees was two as at May 31, 2013 and August 31, 2012.

The variances during the three and nine months ending May 31, 2013 over the respective periods in 2012 were due primarily to higher costs related to the change of business during the third quarter of 2013, offset by lower overall operating expenses and the expiration of the MSA on May 19, 2012.

Interest income

For the three and nine months ended May 31, 2013, interest income recognized on liquid assets totalled \$56 and \$171 respectively (2012 – \$61 and \$219 respectively). The decrease was due mainly to lower cash and short term investments held during fiscal 2013.

The certificates currently bear interest at an interest rate of prime minus 1.66% and are fully redeemable at any time by the Corporation, at its discretion.

The Corporation's working capital, as at May 31, 2013, was \$15,918, compared with \$17,890 as at August 31, 2012, and the decline was due to cash used for current operating expenses.

8. SHARE CAPITAL

As at May 31, 2013 and August 31, 2012, the Corporation had issued 66,165 Multiple Voting Shares and 73,537 Subordinate Voting Shares for total issued shares of 139,702. As a result of the Corporation's sale of its operating assets and the restructuring of its business, as at May 31, 2013 and August 31, 2012, there were no options outstanding to acquire Subordinate Voting Shares of the Corporation. The Corporation's stock incentive plan remains in effect.

9. STOCK BASED COMPENSATION

As a result of the Corporation's sale of its operating assets and the restructuring of its business in 2009, all option holders relinquished all rights to all outstanding Subordinate Voting Shares of the Corporation and all SAR-holders relinquished all rights to all outstanding SAR units of the Corporation. On November 19, 2010, the Corporation's Board of Directors cancelled the SAR Plan.

10. RELATED PARTY TRANSACTIONS

Related party transactions and balances with UBS are as follows:

	Three months ended May 31,		Nine months ended May 31,	
	2013	2012	2013	2012
Management fees expense	\$ -	\$ 377	\$ -	\$ 1,244
Rent revenue	-	(6)	(2)	(18)

Management fees expense

Under the original terms of the MSA, in September 2007 the Corporation advanced \$2,400 to UBS, which was included in prepaid expenses and deposits. Effective January 1, 2011, this amount was drawn down at approximately \$145 per month over the remaining term of the MSA which expired on May 19, 2012.

Rent revenue

During the three months ended November 30, 2012, the Corporation subleased a portion of its premises to UBS for \$2 (three and nine months ended May 31, 2012 - \$6 and \$18 respectively), which was on a month-to-month basis and was recorded as a reduction of general and administrative expenses. On September 30, 2012, UBS terminated its lease agreement with the Corporation and, as at May 31, 2013, the Corporation did not lease premises.

2010 legal advances

During June and July, 2010, the former Board of Directors of the Corporation approved \$1,550 of advances to various professional firms as retainers for future legal fees the directors and officers expected would be incurred answering shareholder complaints and regulatory enquiries. Approximately \$1,464 of the advances was expensed, up to May 31, 2013, and \$86 remains in accounts receivable and other receivables, as a result of a settlement agreement executed between the Corporation and a former director.

The Corporation is seeking recovery of these 2010 legal advances.

11. OPERATING RISKS AND UNCERTAINTIES

Management of capital

The Corporation determines capital to include shareholders' equity. The Corporation's overall strategy with respect to management of capital is to hold low-risk highly-liquid cash accounts and short-term investments.

The Corporation currently does not use other sources of financing that require fixed payments of interest and principal due to the lack of cash flow from current operations and is not subject to any externally imposed capital requirements.

The Corporation invests its capital in short-term investments to obtain adequate returns. The investment decision is based on cash management to ensure working capital is available to meet the Corporation's short-term obligations while maximizing liquidity and returns of unused capital.

On March 13, 2012, the Corporation paid a distribution of \$6,985 to the holders of its multiple voting shares and subordinate voting shares, as a return of capital.

Financial instruments and risk management

The Corporation's activities may expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate, foreign currency risk and commodity and equity price risk).

Risk management is carried out by the Corporation's management team with guidance from the Audit Committee under policies approved by the Board of Directors. The Board of Directors also provides regular guidance for overall risk management.

Credit risk

Credit risk is the risk of financial loss to the Corporation if a customer or counterparty to a financial instrument fails to meet its obligations. The Corporation's maximum exposure to credit risk at the end of the reporting period under its financial instruments is summarized as follows:

Accounts receivable and other receivables	May 31, 2013	August 31, 2012
Currently due	\$ 117	\$ 108
Past due by 90 days or less not impaired	48	116
Past due by greater than 90 days not impaired	535	404
	\$ 700	\$ 628

All of the Corporation's cash is held with a major financial institution in Canada, and management believes the exposure to credit risk with this institution is not significant. The Corporation's maximum assessed exposure to credit risk, as at May 31, 2013 and August 31, 2012, is the carrying value of its accounts receivable and other receivables.

Liquidity risk

Liquidity risk is the risk that the Corporation will not be able to meet its obligations associated with financial liabilities. The Corporation has a planning and budgeting process in place by which it anticipates and determines the funds required to support normal operation requirements. The Corporation coordinates this planning and budgeting process with its financing activities through the capital management process described above, in normal circumstances.

The Corporation's financial liabilities, as at May 31, 2013 and August 31, 2012, are comprised of its accounts payable, accrued restructuring liabilities and accrued liabilities, and are summarized as follows:

Accounts payable and accrued liabilities with contractual maturities -	May 31, 2013	August 31, 2012
Within 90 days or less	\$ 757	\$ 504
In later than 90 days not later than one year	347	411
	\$ 1,104	\$ 915

Interest rate risk

The Corporation had no significant exposure, as at May 31, 2013 and August 31, 2012, to interest rate risk through its financial instruments.

12. CONTINGENCIES

In the normal course of its operations, the Corporation may be subject to other litigation and claims.

The Corporation indemnifies its directors, officers, consultants, and employees against claims and costs reasonably incurred and resulting from the performance of their services to the Corporation, and maintains liability insurance for its directors and officers. As a result of the current litigation, the Corporation may be liable for costs if unsuccessful in pursuing the Claim.

13. ADDITIONAL INFORMATION

Additional information regarding the Corporation's financial statements and corporate documents is available on SEDAR at www.sedar.com and on the Corporation's website at www.ONEnergyinc.com.
