

Unaudited Interim Condensed Consolidated Financial Statements of

ONEnergy Inc.

As at and for the three months ended March 31, 2015 and 2014

Notice of No Audit or Review of Interim Financial Statements

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying interim condensed consolidated financial statements of the Corporation have been prepared by and are the responsibility of the Corporation's management and have been approved by the Corporation's Board of Directors. The Corporation's independent auditor has not performed a review of these financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor.

ONEnergy Inc.

Notes to the interim condensed consolidated financial statements

(Unaudited, in thousands of Canadian dollars, except per share amounts)

For the three months ended March 31, 2015 and 2014

1. Nature of operations

Look Communications Inc. ("Look") was formed on October 31, 1999 under the Canada Business Corporations Act. On July 8, 2013, pursuant to articles of amendment, Look changed its name to ONEnergy Inc. ("ONEnergy"). On July 9, 2013, Look completed a change-of-business transaction and a concurrent private placement.

The unaudited interim condensed consolidated financial statements are comprised of ONEnergy and its wholly owned subsidiaries which include:

- (a) Sunwave Gas & Power Inc. ("Sunwave"), Sunwave USA Holdings Inc., Sunwave Gas & Power New York Inc., Sunwave Gas & Power Illinois Inc., Sunwave Gas & Power Massachusetts Inc., Sunwave Gas & Power Connecticut Inc., Sunwave Gas & Power Pennsylvania Inc. and Sunwave Gas & Power Ohio Inc. (collectively referred to as "Gas & Power"); and
- (b) Sunwave Home Comfort Inc. (formerly The Home Comfort Group Inc., "SHC") and Sunwave Home Comfort USA Inc. (collectively referred to as "Home Comfort")

References to the Corporation include ONEnergy, Gas & Power and Home Comfort. The Corporation is domiciled in Canada and the address of its registered office is 155 Gordon Baker Road, Suite 301, Toronto, Ontario, Canada M2H 3N5.

ONEnergy operates in the Gas & Power, Home Comfort and Energy Efficiency businesses. The Corporation's Gas & Power business involves the sale of natural gas and electricity in Ontario, and electricity in Connecticut, Pennsylvania and Massachusetts, to residential and commercial customers under short or long-term fixed-price, price-protected or variable-priced contracts, under the brand name Sunwave Gas & Power™. The Corporation's Home Comfort business, under the brand name Sunwave Home Comfort™, owns a portfolio of furnaces, boilers and air conditioners ("HVAC") and water heaters, which are rented to residential customers in Ontario and Alberta, under long-term water heater and HVAC rental programs. In addition, Home Comfort also sells, installs and maintains HVAC and water heaters directly to residential customers. Under its Energy Efficiency business, the Corporation provides a variety of products and services including complete turnkey LED lighting retrofits, high-efficiency commercial HVAC equipment, commercial solar PV installation, building envelope upgrades, energy management software and energy auditing services to help commercial, industrial, multi-residential and residential clients minimize their energy consumption, under the brand name Sunwave for Business™.

Effective July 11, 2013, the Corporation's multiple voting shares and subordinate voting shares were listed and posted for trading on the TSX Venture exchange under the symbols OEG and OEG.A respectively.

These unaudited interim condensed consolidated financial statements were approved for issue by the Board of Directors on May 19, 2015.

2. Summary of significant accounting policies

Statement of compliance

These unaudited interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34"), and using accounting policies consistent with International Financial Reporting Standards ("IFRS"). Accounting policies and methods of their application followed in the preparation of these unaudited interim condensed consolidated financial statements are consistent with those used in the consolidated financial statements for the twelve months ended December 31, 2014, except for the adoption of new standards and interpretations effective January 1, 2015 as disclosed below.

ONEnergy Inc.

Notes to the interim condensed consolidated financial statements

(Unaudited, in thousands of Canadian dollars, except per share amounts)

For the three months ended March 31, 2015 and 2014

The following new accounting standards that have been adopted had no material impact on the unaudited interim condensed consolidated financial statements.

Amendment to IFRS 2 – Share-Based Payment

Amendment to IFRS 8 – Operating Segments

Basis of presentation

The unaudited interim condensed consolidated financial statements are presented in Canadian dollars, the functional currency of the Corporation, and all values are rounded to the nearest thousand, except per share amounts. The unaudited interim condensed consolidated financial statements are prepared on a going concern basis under the historical cost convention except for the initial accounting for business acquisitions and for certain financial assets and liabilities which are stated at fair value.

Principles of consolidation

The unaudited interim condensed consolidated financial statements include the accounts of the Corporation and all of its wholly-owned subsidiaries for which it has the power to govern the financial and operating policies. All material inter-company balances and transactions are eliminated. For any new acquisitions, the results of operations are reflected from the dates of acquisition.

3. Significant accounting judgments, estimates and assumptions

The preparation of these unaudited interim condensed consolidated financial statements requires the use of estimates and assumptions to be made in applying accounting policies that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities, at the date of the unaudited interim condensed consolidated financial statements, and the reported income and expenses during the reporting period.

Judgment is commonly used in determining whether a balance or transaction should be recognized in the unaudited interim condensed consolidated financial statements and estimates and assumptions are more commonly used in determining the measurement of recognized transactions and balances. However, judgment and estimates are often interrelated. As the basis for its judgments, management uses estimates and related assumptions which are based on previous experience and various commercial, economic and other factors that are considered reasonable under the circumstances. These estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised. Actual outcomes may differ from these estimates under different assumptions and conditions.

Judgments and estimates made by management in the application of IFRS that have a significant impact on the unaudited interim condensed consolidated financial statements relate to the following:

Revenue recognition

Accounts receivable includes an unbilled receivables component, representing the amount of energy consumed by customers as at the end of the period but not yet billed. Unbilled receivables are estimated by the Corporation based on the number of units of energy consumed but not yet billed, based on estimates using usage data available, multiplied by the current customer average sales price per unit.

Provisions

A provision is a liability of uncertain timing or amount. Provisions are recognized when the Corporation has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated.

ONEnergy Inc.

Notes to the interim condensed consolidated financial statements
(Unaudited, in thousands of Canadian dollars, except per share amounts)
For the three months ended March 31, 2015 and 2014

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

Fair value of financial instruments

Determining the value of derivative instruments requires judgment and is based on market prices or management's best estimates if there is no market and/or if the market is illiquid. Where the fair value of financial instruments recorded cannot be derived from active markets, they are determined using valuation techniques including making internally generated adjustments to quoted prices in observable markets and discounted cash flow models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The estimate includes consideration of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Impairment of non-financial assets

In assessing the value of intangible assets or non-financial assets for potential impairment, assumptions are made regarding future cash flows. These calculations require the use of estimates. If these estimates change in the future, the Corporation may be required to record impairment charges related to intangible assets and goodwill.

Useful life of property and equipment and intangible assets

The amortization method and useful lives reflect the pattern in which management expects the asset's future economic benefits to be consumed by the Corporation.

Acquisition accounting

Management uses judgment to determine whether an acquisition qualifies as an asset acquisition or a business combination by reviewing inputs, processes, and outputs within a transaction. All identifiable assets, liabilities and contingent liabilities acquired in an asset purchase are recognized at fair value on the date of acquisition. Estimates are used to calculate the fair value of these assets and liabilities as at the date of acquisition.

4. Accounting standards issued but not yet applied

The standards and interpretations that are issued, but not yet effective, up to the date of issuance of the unaudited interim condensed consolidated financial statements are disclosed below. The Corporation intends to adopt these standards when they become effective.

The following is a description of the new standards:

IFRS 9 - Financial Instruments is part of the IASB's wider project to replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 retains but simplifies the mixed measurement model where the basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. The standard is effective for annual periods beginning on or after January 1, 2018.

IFRS 15 – Revenue from contracts with customers: In May 2014, the IASB issued IFRS 15 which supersedes existing standards and interpretations including IAS 18, Revenue and IFRIC 13, Customer Loyalty Programs. IFRS 15 introduces a single model for recognizing revenue from contracts with customers with the exception of certain contracts under other IFRSs such as IAS 17, Leases. This Standard requires

ONEnergy Inc.

Notes to the interim condensed consolidated financial statements

(Unaudited, in thousands of Canadian dollars, except per share amounts)

For the three months ended March 31, 2015 and 2014

revenue to be recognized in a method that depicts the transfer of promised goods or services to a customer and at an amount that reflects the expected consideration receivable in exchange for transferring those goods or services. This is achieved by applying the following five steps:

- i. Identify the contract with a customer;
- ii. Identify the performance obligations in the contract;
- iii. Determine the transaction price;
- iv. Allocate the transaction price to the performance obligations in the contract; and
- v. Recognize revenue when each performance obligation is satisfied.

IFRS 15 also provides guidance relating to the treatment of contract acquisition and contract fulfilment costs. This Standard is effective for annual periods beginning on or after January 1, 2017.

5. Seasonality

The customers of Gas & Power typically consume more natural gas during the winter months than the summer months and while they typically consume more electricity during the summer months; electricity consumption is subject to less seasonality than natural gas. The combined impact of natural gas and electricity consumption seasonality on the results of the Corporation is that revenue and cost of sales will be typically higher in the quarters ended December 31 and March 31.

6. Restricted cash

Restricted cash includes cash where availability of funds is restricted by debt arrangements:

- i. The Corporation has deposits of \$1,590 (US\$1,255) at March 31, 2015 (December 31, 2014 – \$1,300) held as collateral to support letters of credit issued by and other initiatives of the Corporation.
- ii. The Corporation has cash of \$12 at March 31, 2015 (December 31, 2014 - \$62) that is pledged as collateral against energy purchases and other obligations under its commodity supply and credit facility agreement with Shell Energy North America (Canada) Inc. and Shell Energy North America (US), L.P. (collectively "Shell Energy").
- iii. The Corporation finances the cost of rental equipment. A portion of the proceeds from each draw is held as security ("finance reserve") against the loan described in note 12(a). As at March 31, 2015, the finance reserve balance was \$689 (December 31, 2014 - \$832).
- iv. The Corporation has other restricted cash of \$NIL at March 31, 2015 (December 31, 2014 - \$118).

7. Accounts and other receivables

Accounts and other receivables are set out in the following table:

	March 31, 2015	December 31, 2014
Trade receivables	\$ 1,911	\$ 984
Unbilled receivables	2,065	1,357
Refundable taxes	89	52
Other receivables	3	15
Total	\$ 4,068	\$ 2,408

ONEnergy Inc.

Notes to the interim condensed consolidated financial statements
(Unaudited, in thousands of Canadian dollars, except per share amounts)
For the three months ended March 31, 2015 and 2014

10. Accounts payable and accrued liabilities

Accounts payable and accrued liabilities are set out in the following table:

	March 31, 2015	December 31, 2014
Accounts payable	\$ 459	\$ 690
Accrued liabilities	3,146	2,255
Accrued restructuring liabilities ⁽¹⁾	189	189
Total	\$ 3,794	\$ 3,134

⁽¹⁾ Accrued restructuring liabilities – 2009 restructuring

During fiscal 2009, the Corporation sold its spectrum and broadcast license, initiated a Plan of Arrangement under the *Canada Business Corporations Act* (Section 192) and, up to November 30, 2010, expensed all associated costs to restructuring charges. Additional charges may be incurred as the Corporation continues in its attempt to recover advances made to various law firms (note 19).

11. Credit facility

On November 20, 2013, Gas & Power entered into agreements with Shell Energy under which Shell Energy will supply energy, credit support, and environmental commodities to Gas & Power in multiple North American natural gas and power retail markets.

The commodity supply agreements allow for Shell Energy to provide Gas & Power with wholesale electricity, natural gas, carbon offsets, and renewable energy credits in Canada and five US states, namely Connecticut, New York, Pennsylvania, Illinois and Massachusetts. The agreements can be further expanded to cover additional states as Gas & Power moves into additional deregulated markets for natural gas and electricity.

Under the credit facility agreements Shell Energy has provided Gas & Power credit arrangements for its Canadian and U.S. operations. Under the Canadian revolving credit facility Shell Energy will be providing Gas & Power with advances of up to \$1,000 for commodity purchases and financial derivatives and related services. Interest is payable on outstanding advances at 4% plus the greater of: (i) 3% or (ii) LIBOR. Under the U.S. revolving credit and collateral credit facilities Shell Energy will be providing Gas & Power with advances of up to US\$15,000 for commodity purchases, certain working capital uses, collateral security support and financial derivatives and related services. Interest is payable on outstanding advances under the revolving credit facility at 4% plus the greater of: (i) 3% or (ii) LIBOR, and under the collateral credit facility at 4% plus the greater of: (i) 4% or (ii) LIBOR. On March 31, 2015, LIBOR was 0.27% (December 31, 2014 – 0.26%). An additional interest rate penalty of 0.50% applies to all facilities in the event that Gas & Power were to be in default of certain financial covenants. Interest is repayable in the month following the month that advances were made. Principal on the revolving credit facility is repayable in the month following the month that advances were made. Principal on the collateral credit facility is repayable by November 20, 2018. No further advances can be made after November 20, 2018.

The agreements are secured by a general security agreement and a pledge of Gas & Power's assets and subject to certain covenant restrictions.

As at March 31, 2015, Gas & Power had \$682 (US\$539) (December 31, 2014 - \$464) outstanding under the U.S. collateral credit facility and \$827 (US\$653) (December 31, 2014 - \$157) outstanding under the U.S. revolving credit facility. In 2015, no advances were drawn on the Canadian credit facilities. Under the U.S. credit facilities, amounts are available in US\$5,000 tranches depending on monthly delivered volumes. As at March 31, 2015, a total of US\$5,000 (December 31, 2014 – US\$5,000) was available to be drawn on

ONEnergy Inc.

Notes to the interim condensed consolidated financial statements

(Unaudited, in thousands of Canadian dollars, except per share amounts)

For the three months ended March 31, 2015 and 2014

these facilities. Under the Canadian credit facilities, a total of \$1,000 (December 31, 2014 - \$1,000) was available to be drawn. As at March 31, 2015, Gas & Power was non-compliant with a single covenant in the Shell credit agreements. An additional interest rate penalty of 0.5% is applied until Gas & Power becomes compliant with this covenant. Interest is provided at 8.0% per annum on the collateral credit facility plus an interest penalty of 0.5%; and at 7.0% per annum on the revolving credit facility plus an interest penalty of 0.5%.

As partial consideration for entering into the agreements above, Gas & Power has agreed to provide Shell Energy with a "participation" payment based upon the performance of Gas & Power during the term of the agreements. A participation payment is payable to Shell Energy upon Gas & Power reaching certain milestones such as customer count thresholds; a disposition of Gas & Power's assets or a material public share issuance by Gas & Power or the Corporation. The payment is based on a certain percentage of Gas & Power's equity value at the time of the triggering event. The payment, if and when triggered, is a one-time event. For clarity, the calculation of the payment is based on Gas & Power's equity value at the time of the triggering event, and not upon the equity value of the Corporation. Given that various events could result in the achievement of triggering milestones, and that the milestones that would trigger a payment may occur at any point over the life of the agreements, as at March 31, 2015 and December 31, 2014 management does not believe it is reasonably possible to estimate either the timing or the amount of such participation payment. No amount for a participation payment to Shell Energy has been accrued as at March 31, 2015 and December 31, 2014.

12. Long-term debt

	March 31, 2015	December 31, 2014
Equipment financing		
Principal	\$ 15,901	\$ 16,343
Accrued Interest payable	33	37
Other long-term debt	81	81
	16,015	16,461
Less: current portion	1,884	1,877
	\$ 14,131	\$ 14,584

(a) Equipment financing

The Corporation finances the cost of rental equipment over a period of seven to ten years. The loans bear interest at rates of 8.9% per annum. Principal and interest are repayable on a monthly basis. The lender retains a portion of the financing proceeds as security ("financing reserve"). This financing reserve is currently at \$689 (December 31, 2014 - \$832) and is reported as restricted cash. The financing reserve becomes available to the Corporation as the debt is repaid. The loan is secured by the rental contracts and the rental equipment that is financed.

(b) Other long-term debt

SHC's former controlling shareholder made advances totaling \$100 to SHC. The loan matures in April 2017, is non-interest bearing, unsecured and principal is repayable monthly.

ONEnergy Inc.

Notes to the interim condensed consolidated financial statements
(Unaudited, in thousands of Canadian dollars, except per share amounts)
For the three months ended March 31, 2015 and 2014

13. Share capital

(a) Authorized

Preference Shares – non-voting, issuable in series. The number of shares under each series, designation, privileges, restrictions and conditions attaching thereto to be determined by the Board of Directors prior to issue. No such shares are issued and outstanding.

Unlimited Multiple Voting Shares - voting, entitled to 150 votes per share (except at separate meetings of holders of shares of any other class), subject to the rights of holders of any preference shares, entitled to dividends, and to the receipt of any distribution of property or assets upon the liquidation, winding-up or other dissolution of the Corporation.

Unlimited Subordinate Voting Shares - voting, entitled to one vote per share (except at separate meetings of holders of shares of any other class), subject to the rights of holders of any preference shares, entitled to dividends and to the receipt of any distribution of property or assets upon the liquidation, winding-up or other dissolution of the Corporation.

Unlimited Class A Non-Voting Shares – non-voting, entitled to dividends, subject to the rights of holders of any preference shares, and to the receipt of any distribution of property or assets upon the liquidation, winding-up or other dissolution of the Corporation. No such shares are issued and outstanding.

(b) Issued and outstanding

Shares (in thousands)	Multiple Voting Shares	Subordinate Voting Shares	Total
Balance, as at December 31, 2014 and March 31, 2015	110,961	\$ 18,805	126,561 \$ 20,420 \$ 39,225

(c) Stock option plans

On March 25, 2002, the Board of Directors of the Corporation ("Board") approved the 2002 Stock Option Incentive Plan (the "2002 Plan"). The 2002 Plan was subsequently amended in 2004 and 2005. On July 9, 2013, the Board approved the 2013 Stock Option Plan ("2013 Plan") and terminated the 2002 Plan. The objective of the 2013 Plan is to provide directors, officers and employees of, and service providers to, the Corporation with a proprietary interest through the granting of options to purchase Subordinate Voting Shares of the Corporation. These groups are primarily responsible for the management, growth and protection of the business of the Corporation. Under the 2013 Plan, the Board may grant options provided that the total number of shares issued under the 2013 Plan does not exceed 21,113. The total number of shares that may be issued under the 2013 Plan represents 10% of the Corporation's currently issued and outstanding Subordinate Voting Shares. The exercise price of the options is determined by the Board at the time of the grant of an option, but cannot be lower than the market price of the Corporation's shares on the TSX Venture Exchange ("Exchange") on the business day immediately preceding the day on which an option is granted, less any permissible discount under the policies of the Exchange. The options vest over a four- or five-year period and the maximum period during which an option may be exercised is 10 years from the date on which it is granted.

During 2015, the Corporation granted 300 options to purchase subordinate voting shares in the capital of the Corporation to employees. These options vest over a four year period, are exercisable at a price of \$0.06 and expire in March 2025.

ONEnergy Inc.

Notes to the interim condensed consolidated financial statements

(Unaudited, in thousands of Canadian dollars, except per share amounts)

For the three months ended March 31, 2015 and 2014

The following table reflects the options outstanding under the 2013 Plan:

	Weighted average remaining contractual life	Number of options (in thousands)	Weighted average exercise price
Outstanding as at December 31, 2014	8.81	18,433	\$ 0.13
Granted		300	0.06
Forfeited		(395)	0.14
Outstanding as at March 31, 2015	8.94	18,338	\$ 0.13
Exercisable as at December 31, 2014	8.81	5,485	\$ 0.135
Exercisable as at March 31, 2015	8.94	6,031	\$ 0.134

The Corporation uses the Black-Scholes option pricing model to estimate fair value of options granted. The fair value of options issued during the period was determined using the following weighted average assumptions: risk-free interest rate of 0.99%; expected volatility of 80%; expected life of ten years and an expected dividend yield of NIL. The weighted average grant date fair value of options was \$0.06.

(d) Loss per share

	For the three months ended March 31	
	2015	2014
Loss for the period	\$ 1,565	\$ 1,357
Weighted average number of shares outstanding (in thousands)	237,522	211,131
Basic and diluted loss per share	\$ (0.007)	\$ (0.006)

Basic loss per share is calculated by dividing the total loss by the weighted average number of shares outstanding during the period. Outstanding stock options, as at March 31, 2015, of 18,338 (March 31, 2014 – 16,962) and Deferred Share Units (“DSUs”) of 613 (March 31, 2014 – NIL), have not been factored into the calculation as they are considered anti-dilutive.

(e) Deferred share unit plan

During 2015, the Corporation awarded 353 DSUs to non-executive directors. These DSUs vest immediately and expire in January 2025.

DSUs are settled at the option of the holder in (i) cash; (ii) subordinate voting shares in the Corporation or (iii) a combination of cash and subordinate voting shares in the Corporation.

	Deferred share unit (in thousands)	Weighted average exercise price
Outstanding as at December 31, 2014	260	\$ 0.05
Granted	353	0.05
Outstanding as at March 31, 2015	613	\$ 0.05

ONEnergy Inc.

Notes to the interim condensed consolidated financial statements
(Unaudited, in thousands of Canadian dollars, except per share amounts)
For the three months ended March 31, 2015 and 2014

During the three months ended March 31, 2015 the Corporation recorded compensation expense of \$25 (three months ended March 31, 2014 - \$NIL) related to the DSUs granted. As at March 31, 2015, a liability of \$37 (December 31, 2014 - \$13) related to the DSUs granted is included in accrued liabilities (note 10).

The DSU plan originated in October 2014 and as such no DSUs were outstanding as of March 31, 2014.

14. Segment disclosure

For the three months ended March 31, 2015, the Corporation reports operations in two reportable segments: Gas & Power and Home Comfort. The Corporation has chosen to organize the entity around differences in products and service. Substantially all of its revenue for the three months ended March 31, 2015 was derived from these two business segments. The balance of revenue was derived from the Energy Efficiency business which does not meet the quantitative thresholds to be disclosed as a separate reportable segment. The revenue for the Energy Efficiency business is disclosed under Corporate & Others. For the three months ended March 31, 2014, the Corporation operated only in the Gas & Power segment. The prior year segmented disclosure has been restated to conform to the current year presentation.

Management monitors the operating results of its segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the unaudited interim condensed consolidated financial statement. The Corporation is not considered to have any key customers.

For the three months ended March 31, 2015

	Gas & Power	Home Comfort	Corporate and Others	Consolidated

Payments received in advance of consumption	(180)	129
	\$ (880)	\$ (586)

17. Related party transactions

(a) Premises sublease

From January to July 2014, the Corporation subleased its premises from OZZ Clean Energy Inc. ("OCE"), who is Sunwave's former controlling shareholder and is a current shareholder of the Corporation. The sublease was for the period from July 2013 to November 2017. For the three months ended March 31, 2014, \$73 was charged to the Corporation. No amounts were outstanding as of March 31, 2014. On January 20, 2014, the sublease and underlying head lease was amended, at no penalty, to early terminate on July 31, 2014, resulting in a termination of the Corporation's obligations under the sublease as of that date. The Corporation relocated its head office to new premises in July 2014.

(b) Electricity revenue

For the three months ended March 31, 2015, the Corporation supplied electricity totaling \$8 (2014 - \$7) to a company that is controlled by the controlling shareholder of OCE, based on the Corporation's standard supply agreement for electricity at a negotiated price per kilowatt hour ("kWh"). The balance outstanding as at March 31, 2015 was \$NIL (December 31, 2014 - \$NIL).

ONEnergy Inc.

(Unaudited, in thousands of Canadian dollars, except per share amounts)
For the three months ended March 31, 2015 and 2014

(c) Compensation of key management personnel

The Corporation's key management personnel are comprised of the Board of Directors and officers of the Corporation.

	For the three months ended March 31	
	2015	2014
Salaries, fees, and short-term employee benefits	\$ 346	\$ 382
Stock-based compensation	87	67
	\$ 433	\$ 449

18. Income taxes

The provision for income taxes differs from the results that would be obtained by applying consolidated Canadian Federal, Provincial (Ontario), U.S. Federal and State statutory income tax rates to profits or loss before income taxes.

This difference results from the following:

	For the three months ended March 31	
	2015	2014
Loss before income taxes	\$ (1,565)	\$ (1,357)
Statutory income tax rate	26.5%	26.5%
Income tax recovery at combined Federal and Provincial rates	\$ (415)	\$ (360)
Increase (decrease) in income tax resulting from:		
Non-deductible expenses	\$ 11	\$ 21
Change in unrecognized deferred tax assets	392	375
Variance between Canadian & U.S. tax rate applicable to U.S earnings and other	12	(36)
Income tax expense	\$ -	\$ -

Deferred tax assets have not been recognized for the following:

	March 31, 2015	December 31, 2014
Non-capital tax loss carry-forwards	\$ 46,813	\$ 46,486
Other	1,850	1,786
	\$ 48,663	\$ 48,272

ONEnergy Inc.

Notes to the interim condensed consolidated financial statements

(Unaudited, in thousands of Canadian dollars, except per share amounts)

For the three months ended March 31, 2015 and 2014

Deferred taxes, in respect of the Corporation's loss carry-forwards, are recognized to the extent that it is probable that they can be utilized. The Corporation has the following Federal non-capital income tax losses, which may be carried forward to reduce future years' taxable income. These losses will expire in the taxation years ending December 31 as follows:

Year	Amount
2015	\$ 55
2026	403
2028	8,987
2029	115,583
2030	5,748
2031	20,550
2032	5,355
2033	7,736
2034	9,740
2035	1,280
	\$ 175,437

19. Commitments and contingencies

(a) Commitments

The minimum payments required under the terms of non-cancellable operating leases are as follows:

March 31, 2015

	Less than one year	Between one and five years	More than five years	Total
Non-cancellable lease	\$ 164	\$ 670	\$ 116	\$ 950
Non-cancellable sublease	(116)	(428)	-	(544)
	\$ 48	\$ 242	\$ 116	\$ 406

March 31, 2014

	Less than one year	Between one and five years	More than five years	Total
Non-cancellable lease	\$ 106	\$ 438	\$ 241	\$ 785
Non-cancellable sublease	-	-	-	-
	\$ 106	\$ 438	\$ 241	\$ 785

(b) Contingencies

(i) Statement of Claim against certain former directors and officers of Look:

On July 6, 2011, the Corporation issued a Statement of Claim (the "Claim") in the Ontario Superior Court of Justice (the "Court") against certain former directors and certain former officers of Look in connection with the payment of approximately \$20 million of "restructuring awards" accrued in fiscal 2009 and paid during the first quarter of fiscal 2010 (the "Sale Awards"), of which approximately

ONEnergy Inc.

Notes to the interim condensed consolidated financial statements

(Unaudited, in thousands of Canadian dollars, except per share amounts)

For the three months ended March 31, 2015 and 2014

\$15.7 million was paid to the directors and senior officers named in the Claim (or their personal holding companies, as applicable) from the net proceeds of approximately \$64 million realized by the Corporation on the sale of its spectrum license in 2009. The former officers and directors named in the Claim collectively resigned effective July 21, 2010.

The defendants delivered Statements of Defence in the spring of 2013. The defendants, other than Mr. Dolgonos and DOL Technologies Inc., also issued Third Party Claims against Stikeman Elliott LLP and one of its lawyers (collectively, "Stikeman Elliott"). Stikeman Elliott delivered Statements of Defence to the third party claims. The parties exchanged Affidavits of Documents in late 2013 and early 2014. Examinations for discovery began in February 2014 and are completed.

The parties participated in a mediation on July 30 and 31, 2014 with the Honorable George Adams Q.C. The mediation did not result in a settlement though discussions continue.

A pre-trial was to have taken place on September 4, 2014. As the judge was not available, the pre-trial was rescheduled for October 1, 2014. At the pre-trial, the court set a schedule for the parties to complete preparation for trial by the end of December, 2014.

On February 2, 2015 the court scheduled the action for a 6 week trial beginning November 9, 2015.

The Corporation also issued a Statement of Claim against McMillan LLP on August 20, 2012 (the "McMillan Claim"). The McMillan Claim seeks recovery of the advances paid in June of 2010 in the amount of \$1,550, which were paid to McMillan LLP and other law firms before the former directors and officers resigned on July 21, 2010. The Corporation has received a defence from McMillan LLP. McMillan participated in the mediation with Mr. Adams and the other defendants in the Corporation's action against its former officers and directors. The mediation did not result in a settlement though discussions continue. As a result, the Corporation and McMillan are completing documentary production and proceeding with examinations for discovery.

- (ii) In the normal course of its operations, the Corporation may be subject to other litigation and claims.
- (iii) The Corporation indemnifies its directors, officers, consultants, and employees against claims and costs reasonably incurred and resulting from the performance of their services to the Corporation, and maintains liability insurance for its directors and officers.
- (iv) Gas & Power is subject to a participation payment to Shell Energy (note 11) upon certain triggering events occurring.

20. Management of capital

The Corporation's overall strategy with respect to management of capital is to maintain financial flexibility to support profitable growth and expansion into new markets. ONEnergy considers capital to be primarily cash, credit facility, long-term debt and shareholders' equity.

The Corporation invests its capital in high-return bank accounts to obtain adequate returns; targeted asset acquisitions and new infrastructure to support expansion into new markets. During 2014 and 2015, the Corporation used a combination of cash, credit facility financing, long-term debt financing, issuance of shares and grants of stock compensation to meet its investment strategy. The investment decision is based on cash management to ensure working capital is available to meet the Corporation's short-term obligations while maximizing liquidity and returns of unused capital.

ONEnergy Inc.

Notes to the interim condensed consolidated financial statements

(Unaudited, in thousands of Canadian dollars, except per share amounts)

For the three months ended March 31, 2015 and 2014

21. Financial instruments and risk management

The Board of Directors has overall responsibility for the determination of the Corporation's risk management objectives and policies and, whilst retaining ultimate responsibility for them, it has delegated the authority for designing and operating processes that ensure the effective implementation of the objectives and policies by the Corporation's management. Periodically throughout the year, the Board of Directors receive reports from the Corporation's management through which it reviews the effectiveness of the processes put in place and the appropriateness of the objectives and policies it sets.

The overall objective of the Board is to set policies that seek to reduce risk as far as possible without unduly affecting the Corporation's competitiveness and flexibility. The Corporation's activities expose it to a variety of market risks, principally from fluctuating commodity prices in Gas & Power. The Corporation has established risk management policies and procedures designed to reduce the potentially adverse effects of price volatility on operating results and distributions. The Corporation maintains commodity risk management strategies that use derivative instruments, within approved risk tolerances to minimize significant, unanticipated fluctuations in earnings caused by market price volatility. Further details regarding these policies are set out below.

Risk management

The main risks arising from the Corporation's financial instruments are commodity pricing and mark-to-market risk, credit risk, liquidity risk, interest rate risk and currency risk. These risks arise from exposure that occur in the normal course of business and are managed on a consolidated basis.

Commodity pricing and mark-to-market risk

The Corporation purchases both physical energy commodities, such as natural gas, and financially settled energy instruments such as electricity swap contracts. These commodity products are subject to market fluctuations based upon market supply and demand for such products. The Corporation experiences fluctuations in the unrealized valuation of its contracts to purchase energy commodities. The Corporation is also subject to cancellations by customers that may leave the Corporation with an excess of commodity supply, which may have to be sold into the open market at an indeterminate price. Management actively monitors these positions on a daily basis in accordance with its Risk Management Policy. This policy sets out a variety of limits, most importantly thresholds for open positions in the electricity and natural gas portfolios. The Corporation's exposure to market risk is affected by a number of factors, including accuracy of estimation of customer commodity requirements, commodity prices, volatility and liquidity of markets. The Corporation enters into derivative instruments in order to manage exposures to changes in commodity prices. The inability or failure of the Corporation to manage and monitor the above market risks could have a material adverse effect on the operations and cash flow of the Corporation.

The fair values of the Corporation's financial instruments are significantly influenced by the variability of forward spot prices for electricity and natural gas. Period to period changes in forward spot prices could cause significant changes in the mark to market valuation ("MTM valuation") of these contracts. If forward spot prices increased by 10%, loss for the period would have been \$236 lower, whereas if forward spot prices decreased by 10%, loss for the period would have been \$237 higher, primarily as a result of the change in fair value of the Corporation's derivative instruments.

Credit risk

Credit risk is the risk of financial loss to the Corporation if a customer or counterparty to a financial instrument fails to meet its obligations. Financial instruments, which are potentially subject to credit risk for the Corporation, consist primarily of cash and accounts and other receivables.

ONEnergy Inc.

Notes to the interim condensed consolidated financial statements
(Unaudited, in thousands of Canadian dollars, except per share amounts)
For the three months ended March 31, 2015 and 2014

Credit risk associated with cash is minimized by ensuring this financial asset is placed with financial institutions with high credit ratings.

The LDCs provide billing & collection services and assume the risk of any bad debts from customers for a fee. Therefore, the Corporation receives the collection of customer account balances directly from the LDCs. Management believes that the risk of the LDCs failing to deliver payment to the Corporation is minimal. For SHC, in markets where LDCs do not provide billing & collection services for a fee, the customer is billed directly by SHC. The Corporation's customers are individually insignificant and geographically dispersed. The Corporation currently believes that its susceptibility to an individually significant write-off as a result of concentrations of customer accounts receivable with those LDCs is remote.

Other receivables are comprised primarily of refundable taxes receivable from the Canada Revenue Agency ("CRA"). Refundable taxes are subject to review by the CRA, which may delay receipt. Management believes the risk of the CRA failing to deliver payment to the Corporation is minimal.

The Corporation's maximum exposure to credit risk at the end of the reporting period under its financial instruments is summarized as follows:

	March 31, 2015	December 31, 2014
<u>Accounts and other receivables</u>		
Current	\$ 3,665	\$ 2,180
31- 90 days	340	81
Over 90 days	63	147
	<u>\$ 4,068</u>	<u>\$ 2,408</u>

The Corporation's maximum assessed exposure to credit risk, as at March 31, 2015 and December 31, 2014, is the carrying value of its accounts and other receivables.

Liquidity risk

Liquidity risk is the risk the Corporation will encounter difficulty in meeting obligations associated with financial liabilities that are settled in cash or other financial assets. The Corporation's approach is to ensure it will have sufficient liquidity to meet operations, tax, capital and regulatory requirements and obligations, under both normal and stressed circumstances. Cash flow projections are prepared and reviewed by management to ensure a sufficient continuity of funding exists.

In the normal course of business, ONEnergy is obligated to make future payments under various non-cancellable contracts and other commitments.

The Corporation's financial liabilities are comprised of its accounts payable and accrued liabilities, payments received in advance of consumption, derivative instruments, credit facility, financial leases, long-term debt and commitments. The payments due by period are set out in the following table:

ONEnergy Inc.

Derivative financial instruments

The Corporation has fixed-for-floating electricity swaps and gas forward contracts that are considered financial instruments. The fair value of financial instruments is the estimated amount that the Corporation would pay or receive to dispose of these supply contracts in an arm's length transaction between knowledgeable, willing parties who are under no compulsion to act. The Corporation has estimated the value of these contracts using a discounted cash flow method which employs market forward curves. The market forward curves are sourced directly from third parties.

At March 31, 2015, the Corporation had the following financial instruments classified as fair value through profit and loss.

Fixed-for-floating electricity swaps - Canada

Notional volumes (on-peak/off-peak)	24,736 MWh / 20,984 MWh
Total remaining notional volume	45,720 MWh
Maturity dates	May 31, 2015 to December 31, 2018
Fixed price per MWh (in dollars)	\$25.04 to \$48.34
Fair value favourable/ (unfavourable)	(102)
Notional value	\$ 1,466

Change in fair value of derivative instruments	For the three months ended March 31		
		2015	2014
Fixed-for-floating electricity swaps	\$	113	\$ 365
Natural gas forward contracts		13	157
	\$	126	\$ 522

Fair Values

IFRS 7 Financial Instruments: Disclosures requires disclosure of a three-level hierarchy ("FV hierarchy") that reflects the significance of the inputs used in making fair value measurements and disclosures. Fair values of assets and liabilities included in Level 1 are determined by reference to quoted prices in active markets for identical assets and liabilities. Assets and liabilities in Level 2 include those whose valuations are determined using inputs other than quoted prices for which all significant outputs are observable, either directly or indirectly. Level 3 valuations are those based on inputs that are unobservable and significant to the overall fair value measurement.

The following tables illustrates the classification of financial assets / (liabilities) in the FV hierarchy.

As at March 31, 2015	Level 1	Level 2	Level 3	Total
Financial assets				
Cash	\$ 6,242	\$ -	\$ -	\$ 6,242
Restricted cash	2,291	-	-	2,291
Accounts and other receivables	-	4,068	-	4,068
Financial liabilities				
Accounts payable and accrued liabilities	-	(3,794)	-	(3,794)
Payments received in advance of consumption	-	(87)	-	(87)
Obligation under finance lease	-	(33)	-	(33)
Credit facility	-	(1,509)	-	(1,509)
Energy derivatives	-	-	(956)	(956)
Long-term debt	-	(16,015)	-	(16,015)
	\$ 8,533	\$ (17,370)	\$ (956)	\$ (9,793)

ONEnergy Inc.

Notes to the interim condensed consolidated financial statements

(Unaudited, in thousands of Canadian dollars, except per share amounts)

For the three months ended March 31, 2015 and 2014

As at December 31, 2014	Level 1	Level 2	Level 3	Total
Financial assets				
Cash	\$ 7,781	\$ -	\$ -	\$ 7,781
Restricted cash	2,312	-	-	2,312
Accounts and other receivables	-	2,408	-	2,408
Financial liabilities				
Accounts payable and accrued liabilities	-	(3,134)	-	(3,134)
Payments received in advance of consumption	-	(267)	-	(267)
Obligation under finance lease	-	(40)	-	(40)
Credit facility	-	(621)	-	(621)
Energy derivatives	-	-	(1,009)	(1,009)
Long-term debt	-	(16,461)	-	(16,461)
	\$ 10,093	\$ (18,115)	\$ (1,009)	\$ (9,031)

Key assumptions used when determining the significant unobservable inputs included in Level 3 of the FV hierarchy consist of:

- (i) discount for lack of marketability up to 1.5%. Discount for lack of marketability represents the amounts the Corporation has determined that market participants would take into account when pricing these derivative instruments;
- (ii) discount for counterparty non-performance risk in the range of 0.26% to 0.34%; and
- (iii) discount rate of 7%.

The following table illustrates the changes in net fair value of financial assets (liabilities) classified as Level 3 in the FV hierarchy for the periods ended:

	For the three months ended March 31	
	2015	2014
Balance, beginning of period	\$ (1,009)	\$ 30
Gains (losses)	(11)	495
Purchases	(53)	28
Settlements	117	(2)
Balance, end of period	\$ (956)	\$ 551

Classification of financial assets and liabilities

The following table represents the carrying amounts and fair values of financial assets and financial liabilities measured at amortized cost.

As at March 31, 2015	Carrying amount and Fair value
Cash	\$ 6,242
Restricted cash	2,291
Accounts and other receivables	4,068
Accounts payable and accrued liabilities	(3,794)
Payments received in advance of consumption	(87)
Obligation under finance lease	(33)
Credit facility	(1,509)
Energy derivatives	(956)
Long-term debt	(16,015)

ONEnergy Inc.

Notes to the interim condensed consolidated financial statements

(Unaudited, in thousands of Canadian dollars, except per share amounts)

For the three months ended March 31, 2015 and 2014

As at December 31, 2014	Carrying amount and Fair value
Cash	\$ 7,781
Restricted cash	2,312
Accounts and other receivables	2,408
Accounts payable and accrued liabilities	(3,134)
Payments received in advance of consumption	(267)
Obligation under finance lease	(40)
Credit facility	(621)
Energy derivatives	(1,009)
Long-term debt	(16,461)

As at March 31, 2015 and December 31, 2014, the carrying value of cash, restricted cash, accounts and other receivables, accounts payable and accrued liabilities, payments in advance of consumption and credit facility approximates their fair value due to their short-term nature. The carrying value of obligation under finance lease and the long-term debt approximates its fair value as its interest payable on outstanding amounts approximates the Corporation's current cost of debt.

Interest rate risk

The Corporation is exposed to interest rate fluctuations associated with its floating rate credit facility. The Corporation's current exposure to interest rate risk does not economically warrant the use of derivative instruments and the Corporation does not currently believe that it is exposed to material interest rate risk.

Currency risk

Foreign currency risk is created by fluctuations in the fair value or cash flows of financial instruments due to changes in foreign exchange rates and exposure as a result of investments in U.S. operations.

Although the Corporation's operations are predominately in Ontario, it has operations in the US. A portion of ONEnergy's income is generated in U.S. dollars and will be subject to currency fluctuations. Due to having an increasing percentage of its operations in the U.S., ONEnergy expects to have a greater exposure to U.S. fluctuations than in prior years.

ONEnergy may, from time to time, experience losses resulting from fluctuations in the values of its foreign currency transactions, which could adversely affect its operating results. Translation risk is not hedged. With respect to translation exposure, if the Canadian dollar had been 5% stronger or weaker against the U.S. dollar for the period, assuming that all the other variables had remained constant, loss for the period would have been \$4 higher/lower (three months ended March 31, 2014 - \$13 lower/higher) and other comprehensive loss would have been \$4 lower/higher (three months ended March 31, 2014 - \$13 higher/lower).

22. Subsequent events

(a) Acquisition of 0867893 B.C. Ltd. (operating as PVL Projects)

On April 30, 2015, the Corporation acquired all the issued and outstanding shares of 0867893 B.C. Ltd. operating as PVL Projects ("PVL") for total consideration of \$698 satisfied by the issuance of 2,248 Multiple Voting Shares and 2,051 Subordinate Voting Shares of the Corporation and \$313 in cash. PVL, which is based in Vancouver, British Columbia, is a provider of retrofit LED lighting solutions for commercial and industrial customers including demanding applications for ports, aircraft maintenance facilities, arenas and gymnasiums, warehouses, offices and general industrial facilities.

PVL is in the process of preparing their financial statements for the period ending April 29, 2015. As a result, the allocation of the purchase price and other disclosures required by IFRS 3 Business Combinations are incomplete as of the date these unaudited interim condensed financial statements have been approved.
